

CENTRAL PA CLAIM SERVICE ADDS MIFFLIN COUNTY TO TERRITORY

[Central PA Claim Service](#) is once again handling auto appraisals in Mifflin County. As you may know, two years ago we had a change in staff and we were forced to eliminate Mifflin County from our service area. We have had some requests since then to handle auto appraisals in that area, so we are adding Mifflin County back into our service area. Adam Biddle joined our staff last year and his home/office is located in Millheim in Centre County and as you can see from the map below it's just a short trip for him into Mifflin County (just 30 miles to Lewistown). From there, he can hop on Route 522 and be in Selinsgrove (Snyder County) in less than an hour. We are hoping to build up business in Centre County again as well and Adam is just a short drive to State College and Bellefonte.

As you are aware, Joe Bergen handles property and casualty losses out of our main office located just north of Williamsport. Presently, due to the distance (80+ miles one way) and travel time involved, it would not appear to be cost effective for him to handle claims in Mifflin County at least when a dedicated trip is involved.

Please make a note of these changes. You can view our territory map by county by [clicking here](#) or you can [click here](#) for a list of zip codes we service.

We thank you for your continued business and we look forward to serving you in the future.
